

KATIE J. LONG

PROFESSIONAL SUMMARY

Professional with a smaller amount of experience but a multitude of skills in the yachting industry. Skillful in anchoring, berthing, sailing and navigating alongside the fundamentals of housekeeping, guest relations and hospitality.

WORK HISTORY

Skipper , 05/2024 to Current

Freelance - Spain

Working as a freelance skipper, carrying out more charters in various companies along the local coast. I sailed Monohulls ranging from 35ft to 46ft often across the Straits of Gibraltar and into Gibraltar bay. I always prepped the yachts for the charters and readied the yachts for the next charter once complete.

Charter Skipper , 09/2023 to 03/2024

Sail And Power - Costa Del Sol

Working in a small charter company & RYA School based in the costa del sol. I conducted charters that included day trips, occasional overnight trips over to Ceuta and Smir with clients ensuring they had memorable times. I provisioned the boats, made sure they all were charter ready as well as carrying out engine checks, small maintenance tasks, passage planning, sailing and navigation.

First Mate , 06/2023 to 08/2023

Freelance - Spain

I had the responsibility of being the first mate on a 40ft monohull undertaking mile building and adventure sailing trips from the south of Spain. Passages ranged from the Balearic Islands all the way to the Portuguese Algarve. I would aid the skipper in planning, victualing, navigating/sailing whilst the skipper was on the off watch, I used electronic navigation aids such as radar, chart plotters, Navtext along with paper charts to keep the vessel and the crew safe at all times.

EDUCATION

Engineering , 03/2016

Lincoln University Technical College

07/2014

Lincoln Minster School - Lincoln, UK
